'Plastimo PRD 300'

Ready to go package in excellent condition.

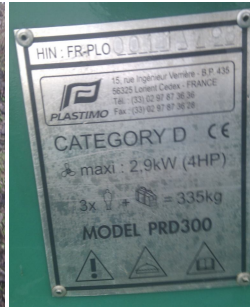

Price £499.00

Particulars

Plastimo PRD300 dinghy in green. Comes on a flatbed trailer with storage for fishing gear, spare wheel, ratchet straps and lighting board etc – ready to tow away and use. Boat comes with oars and rowlocks, engines can be supplied - would ideally suit a 2Hp outboard or electric motor but can take up to 4Hp. Believed to be about 3 years old with very little use, a few scuffs from normal fishing use only. At 57kg this could be lifted onto a roofrack if required, and the built in roller wheel makes for easy launching.

Full new specification can be seen at Norfolk marine website but please note this is not a new boat!
